(1995 Code, § 10-201)

**10-202. Where animals to be kept.** No animals, fowls or poultry described in § 10-201, shall be kept within a distance of one thousand (1,000) linear feet of any adjacent residence, place of business, industry or establishment within the city, without a permit issued by the health officer. The health officer shall permit the keeping of animals, poultry, and fowls on public and private premises under the terms of this Chapter and when the keeping of such animals, poultry, and fowls will not injuriously affect the public health and welfare. In no case will the health officer approve the keeping of chickens within one hundred (100') linear feet of any property line of a residence, place of business, industry or establishment, except that this restriction shall not prohibit approval by the health officer of the keeping of water fowls on public or community development lakes, such as Campbell Lake. This section shall not apply to small animal hospitals under the direct personal supervision of a licensed veterinarian. (1995 Code, § 10-202, as amended by Ord. #2012-012, Sept. 2012)

**10-203. Approval required by health officer to keep animals.** The health officer is hereby authorized to prohibit the keeping of animals, poultry, and fowls described in § 10-201 within the corporate limits of the city when it has been determined that the keeping of such animals and fowls is not in compliance with the provisions included in this Chapter or when the keeping of such animals, poultry, and fowls may prove detrimental to the public health by

creating or causing situations conducive to the breeding and attractivity of flies and other injurious and obnoxious insects, the breeding, feeding and harboring of rats, and which may give rise to offensive smells and odors. Owners and keepers of such animals, poultry, and fowls, when specifically notified to dispose of them by the health officer shall comply within twenty (20) days with such notice, or correct all deficiencies in keeping with the standards herein prescribed. (1995 Code, § 10-203)

**10-204. Temporary permit for show animals.** Persons bringing show animals into the city for the purpose of exhibiting or showing shall apply for a temporary permit to the health officer. The health officer shall have authority to grant such temporary waivers as will, in the opinion of the health officer, not adversely offset the health of the community. No waiver may be granted for more than twenty (20) days. (1995 Code, § 10-204)

**10-205. Pen, stables, etc., to be clean.** (1) No animals or fowls described in § 10-201 shall be kept in any place in which manure or liquid discharges from such animals or fowls is allowed to collect or accumulate to any degree of offensiveness. (2) Stalls, stables, pens, yards and appurtenances in which such animals and fowls are kept shall at all times be maintained in a clean and wholesome condition, so that no offensive odor shall be allowed to escape therefrom, and no rodent, flies or other insects will be able to breed therein or become attracted thereto.

(3) Buildings, pens, yards, and appurtenances constructed for the purpose of housing and impounding animals and fowls shall be located with adequate drainage and constructed so as to facilitate routine cleaning.

(4) This section shall also apply to dogs. (1995 Code, § 10-205)

**10-206. The health officer or his/her authorized representative may issue orders requiring the owners of animals, poultry, and fowls, or owners, tenants, and lessees of properties where such animals, poultry, and fowls are quartered, to routinely clean stalls, stables, pens, and yards and to maintain such appurtenances in a clean and sanitary condition. Failure to maintain premises in a satisfactory condition at any and all times following the receipt of such orders from the health officer will be considered as justification to cause the removal of such animals, poultry, or fowls from within the corporate limits. (1995 Code, § 10-206)

**10-207. How feed is to be kept.** Every keeper of such animals, poultry, or fowls shall cause feed provided therefor, to be stored and kept in a ratproof, fly-tight building, box or receptacle. (1995 Code, § 10-207)

**10-208. General care of animals.** No keeper of any pound, kennel, coop, pen, veterinary hospital, or other such places where animals or fowls may be kept or impounded shall allow the same, or any animal therein by reason of want of care, food, ventilation, or cleanliness or otherwise, to be or to become dangerous or detrimental to human life, health or welfare. (1995 Code, § 10-210)

**10-211. Keeping of Domesticated Poultry/Chickens.**

**(1) Purpose.** The purpose of this Section is to provide standards for the keeping of poultry/chickens so that these animals do not adversely impact the surrounding neighborhood. It is intended to enable residents to keep a small number of female chickens on a non-commercial basis, while limiting the potential adverse effects on the surrounding neighborhood. The City recognizes that there may be an adverse impact on the neighborhood resulting from the keeping of domesticated chickens due to the noise, odor, unsanitary living conditions, unsanitary waste storage and removal, attraction of predators, rodents, insects, or parasites, and the possibility of non-confined chickens leaving the owner's property.

**(2) Number and Type of Chickens Allowed.**

(a) Up to six (6) domesticated chickens may be allowed on single family properties with privately-owned, individual yards. Multi-family residences with shared outdoor spaces and community property are prohibited from housing chickens.

This prohibition includes apartment complexes and housing converted from one unit into multiple units.

(b) Only domesticated female chickens, (hereinafter “hens”), are allowed. There is no restriction on domestic chicken breeds.

**(3) Non-commercial use only.** Hens shall be kept for personal use only. No person shall sell eggs or engage in chicken breeding or fertilizer production for commercial purposes. The slaughtering of chickens is also prohibited.

**(4) Fenced Enclosures and Henhouses.**

(a) Hens must be kept in a fenced enclosure at all times. The fenced enclosure must be either: (i) covered, or (ii) be at least forty-two (42) inches high. Hens shall be secured within the henhouse during non-daylight hours.

(b) In addition to the fenced enclosure, hens shall be provided with a covered, predator-resistant henhouse.

(c) A minimum of two (2) square feet per hen shall be provided for henhouses and six (6) square feet per hen for fenced enclosures.

(d) Fenced enclosures and henhouses must be properly ventilated, clean, dry, and odor-free, kept in a neat and sanitary condition at all times, in a manner that will not disturb the use or enjoyment of neighboring properties due to noise, odor, or other adverse impact.

(e) The henhouse and fenced enclosure must provide adequate ventilation, sun, and shade and must be constructed in a manner to resist access by rodents, wild birds, and predators, including dogs and cats.

(f) Henhouses shall be enclosed on all sides and shall have a roof and a door. Access doors must be able to be shut and locked at night. Opening windows and vents must be covered with predator-resistant and bird-resistant wire of less than one (1) inch openings.

(g) The materials used in making the henhouse and fence shall be uniform for each element of the structure such that the walls are made of the same material, the roof has the same shingles or other covering, and any windows or openings are constructed using the same materials. The henhouse shall be well-maintained.

(h) Neither the henhouse nor the fenced enclosure may be located less than one hundred linear feet (100') from any abutting property line.

(i) Henhouses and fenced enclosures shall not be permitted in front yards.

**(5) Food Storage and Removal.** All stored food for the hens must be kept either indoors or in a weather-resistant container designed to prevent access by animals. Uneaten food shall be removed daily.

**(6) Waste storage and Removal.** Provision must be made for the storage and removal of chicken manure. All manure for composting or fertilizing shall be contained in a well-aerated garden compost pile that does not allow for runoff into stormwater drainage. All other manure not used for composting or fertilizing shall be bagged and disposed of with regular household waste. In addition, the

henhouse and surrounding area must be kept free from trash and accumulated droppings.
